## EDUCATION

---

|                                                    |                 |
|----------------------------------------------------|-----------------|
| ● Sri Siddhartha Institute of Technology, Tumakuru | 2022–2026       |
| B.E, Artificial Intelligence and Machine Learning  | CGPA: 6.62      |
| ● Gnanapriya PU College, Madhugiri                 | 2020–2022       |
| Karnataka PUC Board                                | Percentage: 66% |
| ● Mount View Public School, Madhugiri              | 2019            |
| KSEE Board                                         | Percentage: 88% |

## PROJECTS

---

|                                                                                                                                                                                                                                                                                                  |                     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>Air Drawing Using Hand Gesture Recognition</b>                                                                                                                                                                                                                                                | Jan 2024 – Jun 2024 |
| <ul style="list-style-type: none"><li>Developed a real-time interactive drawing system using hand gesture recognition.</li><li>Implemented colour selection, eraser mode, and two-hand gesture control.</li><li>Tools &amp; Technologies: Python, OpenCV, MediaPipe, NumPy</li></ul>             |                     |
| <b>LiFi and Chatbot</b>                                                                                                                                                                                                                                                                          | Jan 2023 – Jun 2023 |
| <ul style="list-style-type: none"><li>Designed a data transmission system using light as the communication medium.</li><li>Successfully transferred data between two communicable devices.</li><li>Tools &amp; Technologies: Arduino Uno, Light Source, Communicable Devices</li></ul>           |                     |
| <b>AI-Powered Interactive Teaching Assistant</b>                                                                                                                                                                                                                                                 | Oct 2025            |
| <ul style="list-style-type: none"><li>Developed an AI-based classroom assistant with real-time speech-to-text captions and multilingual translation.</li><li>Implemented automatic lecture note generation and context-aware doubt solving using Retrieval-Augmented Generation (RAG).</li></ul> |                     |

## TECHNICAL SKILLS AND INTERESTS

---

**Languages:** Java, Python, SQL, HTML(Basic).

**Developer Tools:** VS Code, google colab,

**Cloud / Databases:** MySQL, MongoDB (Basic)

**Soft Skills:** Problem-Solving, Team Collaboration, Good written and verbal communication, Willingness to learn

**Coursework:** Machine Learning, Artificial Intelligence, Cloud Computing

**Areas of Interest:** Full Stack Web Development, Software Engineering, Data Analytics, Machine Learning Applications, AI Engineer

## CERTIFICATIONS

---

- Artificial Intelligence Course – Adverk (2023)
- Computer Vision Using Python (2025)
- NPTEL – Introduction to Intellectual Property (2025)
- HTML Certification and Oracle Database Course (2024)

## ACHIEVEMENTS

---

- Participated in National Level Project Competition – Line Follower Bot (2023)
- Secured **2nd Place** in Robo Race Competition (2022)
- Inspire Award – Agriculture Fertilizer Spraying Drone (District Level 2020)
